## FOR IMMEDIATE RELEASE

### AUDIO-TECHNICA SHOWCASES ITS TOP-OF-THE-LINE AT-LP240-USB DIRECT-DRIVE TURNTABLE SYSTEM AT CES 2011

STOW, OH, January 6, 2011 — [Audio-Technica](#) is featuring its [AT-LP240-USB Direct-Drive Turntable System \(USB and Analog\)](#) at CES 2011, the first time the turntable has been exhibited at an industry trade show. The AT-LP240-USB is a premium-quality analog and USB turntable designed for home use. Built to deliver exceptional music reproduction, the AT-LP240-USB utilizes a direct-drive high-torque multi-pole DC motor for unwavering speed stability. The turntable also features an S-shaped tone arm with adjustable tracking force and anti-skate adjustment and removable universal cartridge mount (cartridge available separately), along with a damped cast-aluminum platter with stroboscopic speed indicator and felt slip mat.

The turntable's USB output allows direct connection to a computer without any special drivers, making it easy to transfer favorite records to digital music files that can be played back on a portable audio device like an Apple® iPod®, iPhone™, iPad™ and iPod touch®, or in the car or at home.

The AT-LP240-USB also offers a hydraulic tone arm lift and removable stylus target light to aid in perfect cueing, and adjustable arm height to dial in the vertical tracking angle (VTA), an important feature for achieving the most accurate-possible record playback. Its adjustable feet enable the turntable to be perfectly leveled.

The AT-LP240-USB includes a turntable, PC- and Mac<sup>®</sup>-compatible software, a USB cable, audio adapter cables, removable dust cover, 45 RPM adapter and accessories. It plays back 33-1/3, 45 and 78 RPM records. Its built-in selectable phono preamp enables the turntable to be connected to a wide variety of music and home entertainment systems, powered speakers, and to A/V receivers that do not include a phono input. The included Audacity<sup>®</sup> software converts the audio on a record to MP3, WAV or other format digital audio files. The Audacity software also offers audio editing features including equalization and click/noise removal.

Crystal Griffith, Audio-Technica Consumer Marketing Manager, noted, “The new AT-LP240-USB expands our lineup with a superbly constructed high-performance USB and analog turntable designed for ease of use and top-quality sound.”

The AT-LP240-USB is currently available exclusively at J&R Music and Computer World and [www.jr.com](http://www.jr.com) at a suggested retail price of \$499.00.
