FOR IMMEDIATE RELEASE

AUDIO-TECHNICA'S ATH-ANC7b QUIETPOINT® ACTIVE NOISE-CANCELLING HEADPHONES WIN INNOVATIONS 2010 DESIGN AND ENGINEERING AWARD

STOW, OH, January 7, 2010 — [Audio-Technica](#) announced that its [ATH-ANC7b QuietPoint® active noise-cancelling over-ear headphones](#) have received a CES Innovations 2010 Design and Engineering award from the Consumer Electronics Association (CEA). The ATH-ANC7b headphones effectively block 90% of outside noise and offer outstanding sound quality, comfort and convenience.

The ATH-ANC7b delivers superior audio performance, with a smooth, natural tonal balance. The headphones provide clear, high-resolution sound, with impactful bass, a detailed midrange, extended treble and accurate imaging.

The earcups are designed for extended comfort, feature generously cushioned padding and fit easily over any ear. In addition, the ATH-ANC7b is supplied with 1.6 m (5.2') and 1.0 m (3.3') detachable cables, and offers easy battery access.

The ATH-ANC7b employs exclusive QuietPoint active noise-cancellation technology that eliminates 90% of outside noise. A miniature microphone in each earcup detects

environmental noise, and a corresponding sound-cancelling signal is applied. The headphones are ideal for use with the Apple® iPod®, iPhone™ and iPod touch® portable music and DVD players, laptop computers, in-flight entertainment systems and other devices.

The ATH-ANC7b utilizes large-aperture 40 mm drivers for a wide 10 – 25,000 Hz frequency response. The headphones have extremely high 109 dB sensitivity to provide generous volume from any music source. The ATH-ANC7b also works when the noise-cancelling function is turned off, and operates in passive mode without batteries.

The headphones fold flat for storage and come with two detachable cables, a 1/4-inch adapter, an airline adapter and a hard, durable carrying case.

The Audio-Technica ATH-ANC7b QuietPoint active noise-cancelling headphones are currently available at a suggested retail price of \$219.95. They are available online or in stores at the Amazon, Apple Store®, Buy.com, Electronics Expo, J&R Music and other Audio-Technica authorized dealers.
